Instructions for D Rings for Gallery Hanging

Please make sure you read the entry requirements for each OAS exhibition. These are found on the Entry Forms that are distributed to our members and are also available in the Sales Gallery.

D Rings YES

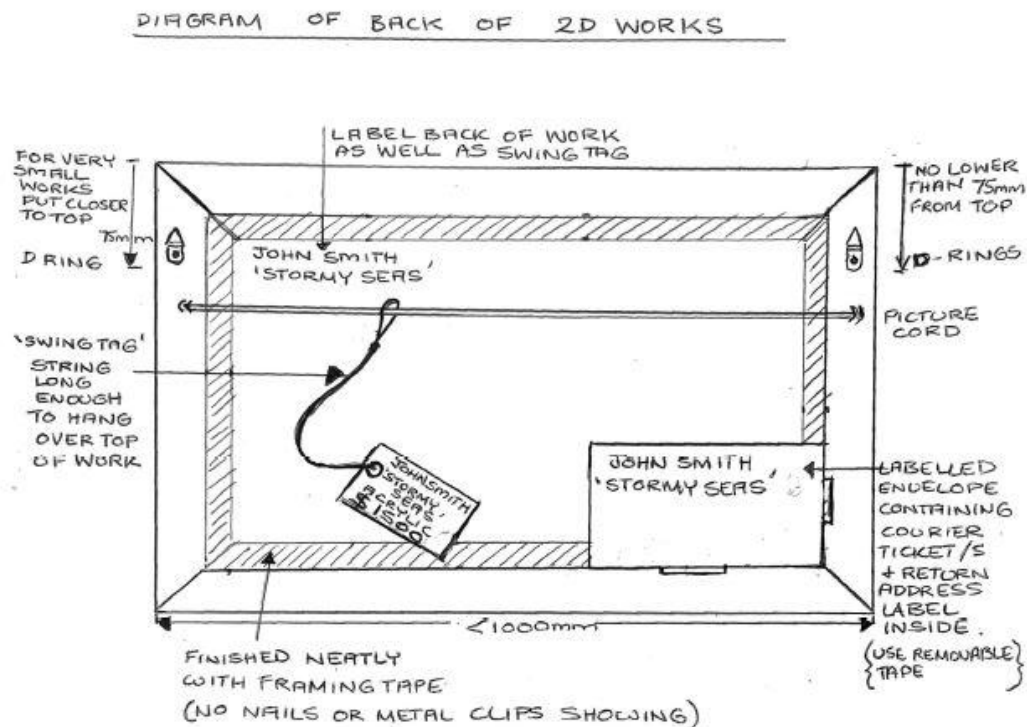

Eyelets NO

Please make sure your work is properly prepared for hanging in an OAS exhibition by fixing D Rings to the back of the frame or canvas. Placing them between 35mm and 75mm from the top of your work stops it from pitching too far forward on our walls. Usually artists attach a second set of D Rings at this height as it is higher than where professional frames or clients would expect them.

D Rings come in many sizes and various designs, all of which are acceptable to the OAS.

Eyelets are not permitted by the OAS. They make it hard to safely store or handle works. They can easily damage other works and are usually too small for our EasyGrip hangers. Please do not use eyelets.

Cord is always appreciated by the customer.

As always, members of the OAS will be on hand when you drop off work for an exhibition to answer any questions you may have or help you make sure your work is ready for hanging.
